FROM: Barb Leetch, Region VIII Alzheimer's Coordinator

TO: Region VIII VP, Federation Presidents and Alzheimer's Coordinators

SUBJ: NARFE Region VIII Alzheimer's Association Report for July 2022

I hope everyone is in good health and safe.

As of the end of July, the NARFE fundraising total was \$14,637,711. The total amount includes the money raised (\$79,779) from the NARFE teams participating in the 2021 Walk to End Alzheimer's and the donations received (\$3,960) from the Longest Day in 2021. During the month of July, our members raised a total of \$18,012, up \$4,362 from donations received in July 2021. The amount raised by Region VIII in FY 2023 is \$794 which is up \$394 from the same reporting period in FY 2022. Below is the breakout by Federation for both reporting periods:

	FY 2023	FY 2022	Difference
California	\$ 615	\$ 400	\$ 215
Hawaii	\$ 179	\$	\$ 179
Nevada	\$	\$	\$
Total	\$ 794	\$ 400	\$ 394

The new fundraising goal is \$15 million by December 2024.

Fiscal Year 2023 covers the period July 1, 2022 through June 30, 2023.

Thyroid issue may increase dementia risk

Older adults with an underactive thyroid gland may be vulnerable to developing dementia, new study results suggest. Researchers found that among 15,000 older Taiwanese adult study subjects, those who had been treated for low levels of thyroid hormones were more likely to be diagnosed with dementia. Additional research is needed to understand the exact relationship, if any, between the two conditions.

Take precautions to avoid issues with multiple medications

A person living with Alzheimer's, or another dementia may be prescribed multiple medications and also have prescriptions for other conditions. Care needs to be taken with all medications and when more than one is being used.

Take precautions when traveling with someone living with Alzheimer's

A person living with Alzheimer's, or another dementia may be able to participate in meaningful activities such as travel. However, it does require planning to ensure safety and enjoyment for everyone.

FDA rejects Nuplazid as a treatment for Alzheimer's related psychosis.

The U.S. Food and Drug Administration (FDA) has kept to its initial decision to reject a request by Acadia Pharmaceuticals to expand Nuplazid (pimavanserin) to treat hallucinations and delusions associated with Alzheimer's disease-related psychosis.

In a complete response letter (CRL) indicating it had finished its review of the company's resubmitted supplemental new drug application (sNDA), the FDA said it would not approve the current application and recommended Acadia conduct an additional clinical trial for psychosis due to Alzheimer's disease.

Walk to End Alzheimer's. The NARFE Goal for the 2022 Walks is \$100,000. To date, \$24,262 has been raised. Teams can now register for the walk this year at alz.org/narfewalks. The Walk is the largest fundraiser for Alzheimer's care, support, and research. You will be making a difference! The place and dates for the 2022 Walks in Region VIII are shown below:

Walk Location	2022 Walk Date
Aptos, CA	9/17/2022
